SigmoCarStereo

Frequently asked Questions:

Is this product plug and play? Do I need to program or code my BMW? Do I need to buy external GPS antenna? Can I still check the car info as the OEM screen?
Answer: Yes, it is totally plug and play, it has the same plugs and harness as original BMW system. You do not need to program your car when installation, totally plug and play. All necessary accessories are included in the package. You do not need to buy anything else to make it work. You can still check the original BMW car info as before.

How do I switch the new Android system to the original BMW CCC/CIC/NBT/EVO interface?
Answer: Please tap "Car-info" icon on the home screen OR long press (3 seconds) MENU button on iDrive to switch to original CCC/CIC/NBT/EVO interface.

How do I switch the original BMW CCC/CIC/NBT/EVO interface to new Android system?
Answer: Please tap the screen or long press (3 seconds) MENU button on iDrive.

Why it shows "No signal" when tap "Car-info" or switch back to original BMW interface?
Answer: Please check the LVDS port. Make sure you connect the LVDS plug (removed from the OEM screen) to the new screen.
